No.	Module	Bug / Issue	Expected Result	Priority	Status
1	Request Access	Request Access cannot be submitted. Warning shows: "We couldn't reach the server. Check your connection and send the form again."	Request Access form should submit successfully without connection errors	**P0**	[New]
2	LOTO	File/evidence cannot be uploaded in the Lockout/Tagout field.	File/evidence should upload successfully in the LOTO field	**P0**	[Related - PTW-023]
3	Permit Templates	Add Section is not working when creating/editing a permit template.	Add Section button should create a new section in the template	**P1**	[New]
4	Permit Creation	Machinery does not appear in the dropdown initially. It appears only after refreshing the application.	Machinery dropdown should load immediately without requiring page refresh	**P1**	[Same - PTW-058]
5	Incident Management	Chat Admin cannot report an incident. Warning shows: "Validation failed, UUID expired."	Incidents should be reported successfully without UUID expiration error	**P0**	[New]
6	Permit Permissions	Org Admin can perform multiple permit actions—fill permit details, submit, approve, and start work.	Role-based permissions should enforce Segregation of Duties	**P0**	[New]
7	Notifications	Permit approval notification appears in Messages, but clicking it does not open the specific permit; it opens/shows all permits.	Clicking notification should open the specific permit directly	**P1**	[New]
8	Permit Creation - LOTO	Add Lockout/Tagout is not working while creating a permit.	Add Lockout/Tagout should work and attach isolations to the permit	**P0**	[Related - PTW-021]
9	Permit Closure - Evidence	After adding evidence during permit closure, "Authentication required" is displayed.	Evidence should submit without authentication error to allow closure	**P0**	[New]
10	Profile	Profile picture cannot be removed, and the selected profile picture does not display.	Selected picture should display, and remove option should be available	**P2**	[Same - PTW-036]
11	Evidence	Uploaded evidence cannot be opened/viewed.	Uploaded evidence files/images should open and view properly	**P1**	[Same - PTW-063]
12	HOD Notification	HOD does not receive a notification when the Job Issuer submits a permit and HOD approval is the next step.	HOD should receive notification when permit requires approval	**P1**	[Same - PTW-059]
13	User & Roles	Temporary Password - Copy button is not working.	Temporary password should be copied to clipboard successfully	**P1**	[Same - PTW-005]
14	Download	A Download option is required/available for downloading the details, but its expected behavior should be verified.	Download option should export permit/incident details properly	**P2**	[New]
15	Incident - Root Cause	Clicking Record Root Cause for an unsafe incident does not open the expected popup/form.	Record Root Cause button should open the investigation form	**P1**	[New]
16	Incident - Corrective Action	Clicking Corrective Action does not open the expected popup/form.	Corrective Action button should open the CAPA action form	**P1**	[New]
17	Incident - Assign	In Manager Incidents, clicking Assign results in "Unable to load page."	Assign button should open assignment screen/modal without error	**P1**	[New]
18	Permit Creation - Back	There is no Back button while creating a permit.	Back button should be available on each permit creation step	**P2**	[Same - PTW-027]
19	Permit Page - Back	The Permit page does not have a Back button.	Back button should be available on the Permit page	**P2**	[Same - PTW-002]
20	Permit Creation - Next	After entering Basic Information, the Next button does not respond on the first click. The user has to click it again.	Next button should respond and navigate immediately on first click	**P2**	[New]
